AFTER

Cantron Testimony

Farida is a Tanzanian. Her personal story: Farida was diagnosed with HIV/AIDS and became very ill. Farida was bedridden and her mother took care of her for many months. She was wasted away from the disease, and it was expected that she would die from her illness. Medical Research Products mailed liquid Cancell/Cantron to her and she took it as directed for one month (32 days). She fully recovered from the disease, and it is with gratitude that she sent her photo to show the world how robustly healthy she has become .

Photo: Farida and her mother.

DEFEAT CANCER

...Like I Did TWICE!!

Natural therapies alone - I have never received chemotherapy or radiation treatment - saved me from terminal double melanoma, diagnosed in April 2003, and bowel cancer diagnosed in June 2008. I am cancer free today.

I have experienced an amazing ten year journey with cancer. I defeated two cancers which are normally very difficult to overcome. In late 2007, I self published my first book "Join our Escape from Death Row - Cancer Jail". Subsequent testimonials told me it enabled numerous people to defeat their cancers.

This book is my legacy. It is the culmination of ten years of narrow focus research to find 'weapons' from Mother Nature that will savagely attack cancer. The good news is that Mother Nature provides a great number of these.

**THE TECHNOLOGY OF MOTHER
NATURE IS FAR SUPERIOR TO
THE MEDICINE OF SCIENTISTS.**

I offer this book as evidence to this truth.
